

PRINCE2® Foundation

Certification: APM Group
Duration: 3 Days

Goal

In PRINCE2 Foundation course delegates will be shown how the framework is structured, how the different project activities and project roles are linked together and how PRINCE2 deals with exceptions that are imminent to occur in any kind of project.

During the PRINCE2 Foundation course delegates will learn how to set up a project management organization that is responsible for managing and planning the project. Delegates will be taught how to define the different project management roles to guarantee that the project is run in a most effective and efficient way. The method of 'management by exception' will play a crucial role in handling project issues. At the end of the course, delegates can take the official PRINCE2 Foundation exam. If at a later stage delegates wish to take the official PRINCE2® Practitioner exam they will have to have pass the PRINCE2 Foundation exam. An accredited PRINCE2 trainer from Midas will give the training course.

The PRINCE2 Foundation training is aimed at measuring whether a candidate can act as an informed member of a project management team on a project using the PRINCE2 method, within an environment supporting PRINCE2. Towards the end, candidate needs to be able to show he or she understands the principles and terminology of the PRINCE2 method.

Specifically:

- Understand the purpose and responsibilities of all roles.
- Understand the seven principles, the seven themes, the seven processes, and the Product-based Planning and Quality Review techniques.
- Understand which management products are input to, output from, and updated in the seven processes.
- Understand the purpose of all management products and the composition of the Business Case, Product Descriptions, Issue Report and the Issue, Risk and Quality Registers.
- Understand the relationship between principles, processes, themes, deliverables and roles within a PRINCE2® project.

Participants

This course is suitable for project managers, team managers, project support staff, quality assurance staff and for anybody else who is somehow involved in participating or running one or more projects.

Course Description

The PRINCE2® Foundation course is a 3 day program with the official PRINCE2® Foundation exam given at the end of the third day. The course consists of a mix of theory and practical exercises. Most of the exercises will be done in small groups. Every delegate receives access to our PRINCE2 e-learning environment, PRINCE2 Podcast with exercises and slides.

Pre-Course Reading

There is no Pre-Requisite to write PRINCE2 Certification but it is highly recommended that delegates read through the Pre-Event manual that will be provided at least 3 days prior to the day of training. Pre-Event manual is an introductory manual to PRINCE2 and it takes about 2 to 3 hours to go through this manual. In case you are attending one of our scheduled batches and you have not received the Pre-Event manual, kindly contact us at the earliest

What to do after this Course?

PRINCE2 certification is a 2-step approach. First you must pass the PRINCE2 Foundation exam. After that you can take the PRINCE2 Practitioner course followed by PRINCE2 Practitioner exam. For your convenience both courses are given back to back from Monday-Friday or can be split among 2 sessions at one or more locations in Thailand or across globe.

PRINCE2 Foundation course is delivered by “PSI Solutions” in association with Midas Consulting Services.

PRINCE2® Practitioner

Certification: APM Group
Duration: 2 Days

Goal

PRINCE2® Practitioner course is aimed to measure whether a candidate can apply PRINCE2 to the running and managing of a non-complex project within an environment supporting PRINCE2.

Towards the end candidate needs to exhibit the competence required for the PRINCE2 Practitioner qualification, and show that they can apply and tailor PRINCE2 to address the needs and problems of a given project scenario.

Specifically:

- Know or comment on detailed explanations of all processes, themes and techniques, and worked examples of all PRINCE2 management products as they might be applied to address the particular circumstances of a given project scenario.
- Demonstrate that they understand the relationships between processes, themes, techniques and PRINCE2 management products and can apply this understanding.
- Demonstrate that they understand the reasons behind the processes, themes and techniques of PRINCE2.
- Demonstrate their ability to tailor PRINCE2 to different project environments.

Participants

This course is suitable for delegates who are involved in managing one or more projects and delegates who wish to take the PRINCE2 Practitioner exam. Delegates attending this program should have cleared PRINCE2 Foundation Exam.

Course Description

Before attending this course the student must have participated in a PRINCE2 Foundation course either through PSI Solutions or another APM Group ATO or Affiliate. Before attending the PRINCE2 Practitioner exam the candidate must have passed the PRINCE2 Foundation exam. The PRINCE2 Practitioner course is set up as a very practical exam preparation course with the official exam on the afternoon of the second day. Students will go through hundreds of practitioner style questions on all PRINCE2 subjects and will receive a full PRINCE2 Practitioner test exam with sample answers. The Practitioner course includes access to our PRINCE2 e-learning environment, our PRINCE2 Practitioner Event manual and the 'Managing Successful Projects' with PRINCE2 – OGC manual.

PRINCE2 Foundation course is delivered by "PSI Solutions" in association with Midas Consulting Services.
